

Height Adjustable L-Shaped Desks

Ergonomic, Stylish, Easy to Adjust and Assemble

The upCentric Electric Height Adjustable L-Shaped Desks are designed to encourage movement to employees required to sit for extended periods of time; to decrease stress and tension, and to increase productivity and employee satisfaction.

Gyro Sensor - Anti-Collision Solution

All upCentric height adjustable desks include a patented Gyro sensor anti-collision system for enhanced safety and reduced injuries and damage to property.

Pre-settable Memory Positions - One-Touch Adjustment

Moving the desk is intuitive with the easy-to-use up/down control and four settable memory positions. Simply press the button with preset position and the desk will automatically adjust to your desired position.

Easy to Assemble - Save Your Time

We understand how important easy-assembly is to people looking for height adjustable tables, which is why we've made the upCentric assembly as easy as possible.
