

Conference Table Power Data Dock

A stylish, durable and easy to use Power & Data Hub

The Power Data Dock-800 is designed for use in large meeting or conference tables, with large internal space and closing lid for stashing and storing cables.

This flush-mounted tabletop dock with closable lid offers flexible configurations and can be easily closed and hidden away when not in use. Simply press down on the lid and the dock smoothly opens up to reveal convenient power receptacles, data communication and media options.
