

ergoCentric[®] Sit Stand

The ultimate
sit-stand available

ergoCentric[®]

Easily alternate between different postures.

With its innovative design, the ergoCentric Sit Stand is the ultimate sit-stand chair combining three chairs in one: providing a sit-stand, a sit-stand with backrest, or a counter or desk height task chair.

The ergoCentric Sit Stand can go from a height of 19 ¾" all the way up to 33". Height adjustments are easy and quick, allowing you to alternate between various postures throughout the day, removing unnecessary demands on any specific groups of muscles.

Made from high friction ergoCentric+Guard™, the No-Slip Strip is an integral part of the ergoCentric Sit Stand's design, designed to prevent users from slipping while in the perched position. The front casters make the sit-stand easy to move around and it comes fully assembled for convenience.

FEATURES

- 1 No-Slip Strip
- 2 3 glides provide stability
- 3 2 casters for easy moving
